Videos

Access

Collection is open to all researchers. Access to Barack Obama Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Audiovisual records in this collection were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of Barack Obama’s presidency are housed at the Barack Obama Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by

Staff Archivists, 2024. Previously restricted materials are added as they are released.

Scope and Content Note

The materials in FOIA 24-65276-F are a selective, not necessarily all-inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 24-65276-F requested video footage filmed during President Obama’s visit to Seattle on October 21, 2010.

This FOIA primarily contains footage of President Obama speaking and answering question on women and the economy in the backyard of the Foss family’s house, a visit to the Top Pot Doughnuts, and arrival to and departure from Seattle.

System of Arrangement

The materials in FOIA 24-65276-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Communications Agency.

White House Communications Agency records are processed at the folder/videotape level. While this method maintains folder/videotape integrity, it frequently results in the incidental processing of videotapes that are not wholly responsive to the subject area.
