The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by Obama administration staff. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home

and shared drives used by White House staff.

The WHORM Subject File was compiled by the White House Office of Records Management and consists of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories, including a detailed description of each category, is available on the National Archives Catalog.
