Message: Mr. President I live in the Beverly Hills section of Chicago. You came to my neighborhood when you were running for senator of Illinois. I did campaign work for you to help you get elected senator and the rest is history. I am now asking for your help. The Chicago Police Department and their oversight committee is dysfunctional and cannot be trusted. Black people in Chicago have suffered and died by the hands of this corrupt police department. We cannot trust them or the city of Chicago to do a thorough and fair investigation in the Laquan McDonald murder and other murders police have been involved in Chicago. We need your assistance. We need y our help. Please send in the U.S. Department of Justice to investigate this situation. Please put aside partisan politics, personal relationships, and do the right thing for the citizens of Chicago. We were their when you needed us and now we need you more than ever.
