Subject: Shooting in CT

P6/b(6)

Situation still very fluid, and all information should be considered preliminary. Press is reporting unconfirmed information on multiple deaths, with school principal possible target.

According to FBI: One shooter is confirmed dead; possible second shooter on school grounds but that is not confirmed. At least three individuals have been transported to local hospital. Connecticut State Police are in the process of clearing the building. Subject was dressed in black BDU's and military vest and had at least two handguns.
