Subject: Update

A few updates:

P6/b(6)

b(7)e
b(7)f

FBI interviewing family members, who say subject has been uncommunicative over past several months.

Trash found at residence shows subject purchased [REDACTED]
[REDACTED] all of which can be used for high explosive, confirming assessment that apartment is rigged with real explosives.

Entry into apartment will probably not be attempted tonight. Mueller directed his folks to go slowly and avoid detonation. The 5 buildings around his apartment have been evacuated. Decision will be made in the morning whether to cut wires in an attempt to disable.

Subject reportedly seen at shooting range earlier this month with an unidentified individual, whose identity is now focus of intense investigative efforts.

Weapons were purchased by subject from arms dealers in CO during May, June, and July. Subject purchased bulletproof pants, assault vest and a remote firing system from Ebay.

The Internet posting (le 9gag Army) apparently was a fake; assessed to have been posted after the shooting.

Will advise further developments.
