President Obama:
AKA: The Great Divider

It is impossible to tell in words you just what a total failure you really are. Your intent was to divide the country and destroy what America stands for and it looks like that is your only accomplishment. That and your "Beer Summit"! We don't need a racist as a President nor one who has proven to be totally incompetent in all areas.

Get off your dead ass and close the border! Your blame game tactics, lies, and cover ups have caught up with you. The Citizens and legal residents of this Country don't trust you and you have proven too many times that you are a liar. You are a disgrace to America. You don't have a backbone and the world knows only too well you are a weak leader. The World doesn't trust you and impeachment proceedings should have been started long ago.

You had a golden opportunity to bring this Country together and get things done that would be good for our country but that wasn't your agenda. You sold out America and it's time for you to be removed from your job. Hopefully Congress will start to put this Country back on track rather than continue on the path of destruction.

I'm sorry to say you will be remembered as a traitor, a liar, a Racist, a divider, and a total failure. Certainly a person that never admits to being wrong. And now you continue to ignore the thousands of children, illegal immigrants, arriving at the border. Now more than ever this Country needs "Honest" leadership. You do not qualify! Go back to Chicago or just disappear. America deserves better!
