Thank you everyone for your tremendous work to make this victory possible!! Ten days ago, Ed Markey told a group of us that the biggest obstacle to passing this bill was that "no one believes that we can pass this bill." Thanks to everyone's great work, we succeeded tonight.

There are too many people to thank that if I try I will surely leave someone out. So thank you all for your contributions to this victory!!! We have a long way to go, but a long march begins with a single step --- or leap in this case. (Did Mao say something like that?) Now, on to sequential jurisdiction.....

Thanks again everyone!!
