Ok so he doesn't need the token or bb right she just wants me to give it to you to take to him?  
That's the way that I am reading this.

Hi Graham,

I don't mean to bug you with this, but we have one final associate BB and associate token that are currently being migrated that I am hoping to get to Tim Gowa tonight, once migration is complete.

This BB and token are for Katie Lillie. Tim and Katie will both be heading to Hiroshima tomorrow for the advance.

Nancy Crocker is working on the migration now in Room 76. I have to leave early today, but have copied Martha Lein here. Martha is overseeing the completion of this migration today.

When the BB and token are complete, might you be able to bring it home with you to hand off to Tim tonight?

Again, my sincere apologies for bugging you with this.

Let us know if this is not possible.

Thanks so much,
