Subject: Brooklyn Police Shooting

Sir - I wanted to alert you to a police shooting that is receiving significant media attention back here because it appears motivated by recent events in Ferguson and NY.

Two NYPD police officers were shot today in Brooklyn while they sat eating in their patrol car. One officer is dead and the other is in critical condition. The attack is being characterized as an ambush as the assailant had posted to his social media page messages regarding his desire to kill police and his anger at the recent events in Ferguson and New York. The shooter has died from a self-inflicted gun shot wounds. Initial reporting is that he shot his girlfriend in Baltimore and then traveled to NY with the stated purpose of attacking police officers.
