Good morning sir-

Folks are planning for you to head to the Library of Congress at 1 pm. If your plans change let me know.

I also thought you would like to know that I have received more emails about the speech yesterday than for any speech before. Everyone from Kornheiser to former staff to original NFC members have been writing to let you know how proud they were. It was special to be there.

Enjoy the day, Maju and Bobby will be around if you need anything at the Library.

Joe
