Emperors are wearing no clothes - childish script played on Earth exposed through my Invoking of Law of Intent as I withdraw the Allowance from my Intent here on Earth and throughout Creation – meaning Law of Attraction not upheld by both Laws of Allowance and Intent - where now Law will apply - **Game Over** -

You Fools, you only had Law of Attraction in play with the misuse and misunderstanding of Law of Allowance from the Original Intent – so all through time what was in play was Law of Attraction and where you failed to comprehend Planet Earth has been created within the Original Intent with Law of Balance, the foundation to Creation.

While playing around with the URL's for Japan nuclear iodine forecasts I discovered a nuclear radiation forecast that accidentally placed on the ZAMG website. The scientists inadvertently uploaded a radiation forecast showing a massive cloud of Fukushima Xenon radiation spreading over Japan and the United states which should have been an iodine forecast.

In my previous post I reported on the [massive nuclear fallout cloud of highly radioactive iodine which, after taking the dreaded turn for the worse, stopped blowing offshore and started blowing straight across Japan](#). I decided to see if I could get future forecasts, or should I say a current simulation for May 9th and....

OOPS - They F*ck'd UP, Were we supposed to see this?

World Fukushima Nuclear Xenon Simulation May 9 2011

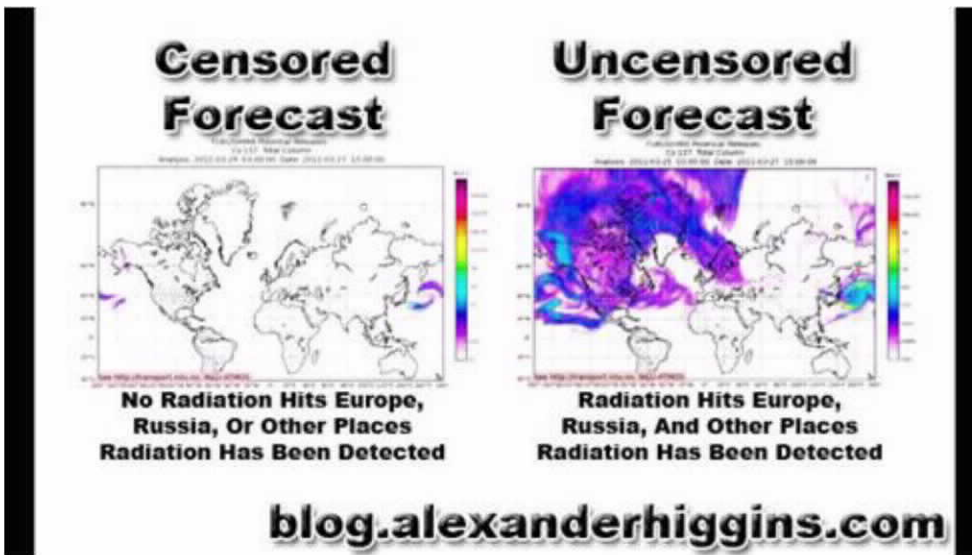

Being inquisitive, I hacked the URL and tried getting the May 9th forecast. Much to my surprise the file "20110508_1-131_FUKU.gif" didn't pull up i-131 dispersion plume. Instead it pulled the WORLD XENON radiation plume projection and it looks bad.

Nuclear physicist suspects No. 3 MOX spent fuel rods have spread out and surrounding area is contaminated with plutonium

— ***“You can never return to this place again”***

May 9th, 2011 at 09:08 AM

[Deadly Silence on Fukushima](#), Vivian Norris for the Huffington Post, May 9, 2011:

I received the following email a few days ago from a Russian nuclear physicist friend who is an expert on the kinds of gases being released at Fukushima. Here is what he wrote:

About Japan: the problem is that the reactor uses "dirty" fuel. It is a combination of plutonium and uranium (MOX).

I suspect that the old fuel rods have been [sic] spread out due to the explosion and the surrounding area is contaminated with plutonium which means you can never return to this place again.

It is like a new Tchernobyl. Personally, I am not surprised that the authority has not informed people about this.

[...] I have also watched as the news has virtually disappeared. There is something extremely disturbing going on and having lived through the media blackout in France back in April and early May 1986, and speaking to doctors who are deeply concerned by the dramatic increase in cancers appearing at very young ages, it is obvious that information is being held back. [...]

High radiation beyond evacuation zone — Kyoto nuclear professor surprised by extent of contamination and the vast area it covers

and, more of the childish script exposed:

Osama Bin Laden, Adolf Hitler both declared dead on May 1 and, Guess what happened 11 x 11 years after Hitler's birth to the day! The BP oil rig explosion!

Head Of CIA – Reports Obama Watched Bin Laden Die Are Lies, Admits NO LIVE VIDEO FOOTAGE of Assassination Raid So, the story about watching a live feed in this photo was a total lie, and this photo .. **Was staged!**

--- Bin Laden, who died of kidney failure in December of 2011 --- In July of 2001, Osama Bin Laden was flown to the American Hospital in Dubai for kidney treatment ---

all will see the illusion that was created including all the Emperors are wearing no clothes as "they" are accountable and have no authority to be here or to play this evil game here on Earth when it is not even "their" Planet. In other words, their game is over, them and their Satanic God are accountable now to our Highest Authority, our Creator through my Invoking of the 2nd Law here in Australia and where now their mocking has come to an end.

and, LOOK at the destruction "THEY" do to this Planet – when "THEIR LUCIFERIAN GOD" is only a COMPUTER – Whore of all Whores –

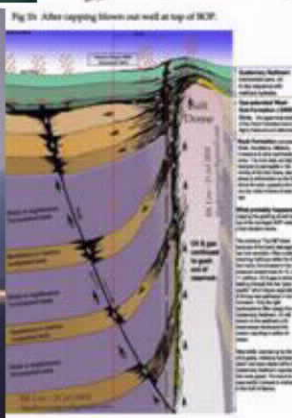

Japan - Exploded Nuclear Plant Uses MOX Fuel - Not Uranium! What is that? Just 2 MILLION Times WORSE than Uranium or Chernobyl's Meltdown!

All actions and agendas of everyone on Earth, be it Military, Political, Religious or those for human experience changed in 1971 through the Invoking of the 2nd Law and that's a fact, everything has been unobtainable here on Earth through the last 40 years and always was unobtainable, the world's only allowed themselves to be judged in Creation - **Game Over -**

It's all been a hoax and it's all been an illusion, the world's always been in the clutches of the Devil's game with the illusion there is law and the hope of the return of a saviour and still their word of accountability in the illusion is ignored.

[The Actors on the world stage,](#) might be able to scoff at Domestic and International Law "they" created but "they" are accountable to the Creators Laws through [my Invoking of the 2nd Law](#) and it's these Laws that will take "their" accountability out to infinity for standing in defiance to the Creators Laws and his Creation.

The Creator waited a long time to see his Laws come into play knowing Creation's correct, and the fools that belong to the Luciferian agenda, the Creator cannot be unseated, ***he is his Laws***, and it's these Laws that are the foundation to Creation you all overlooked.
