Subject: Healthcare

P6/b(6)

I am passing the word to as many people as I can, to get this healthcare bill defeated. Relatives, friends or anyone at all, be you Democrat or Republican should be concerned and rise up and make their voices heard. This is the worst program that could be instituted, especially for people on Medicare. Any retired persons on insurance programs from their former employer will be crushed when companies abandon their medical programs for retirees.
I am emailing politicians of both parties to let them know my feelings about this.
Let's not even talk about the clunker program that would let even Bill Gates or any rich person take advantage of the program, by turning in a clunker for the rebate.
Can you imagine what the effect will be on Medicare recipients if this passes. The government can't run itself, let alone a health care program. Bad enough they are in the automobile business, as well as us, even though we had no choice.
Complain and protest to any people or political representatives you know. Time is short and we must act now.

Tom Ross
